

OUR PROJECT

The CARE project aims to support the integration of migrant students into multilingual educational systems by developing innovative tools and methodologies for language learning. Through tailored outputs such as a Methodological Guidebook, CLIL-based language courses, a digital mentoring programme, and an E-platform, the project empowers educators to create inclusive, effective learning environments. CARE promotes linguistic and cultural inclusion, fostering academic success and social cohesion.

Co-funded by the European Union

"LANGUAGE IS THE PATH TO BELONGING"

The main objective of the project is to integrate pupils with a migrant background into society through CLIL-based language education and a digital mentoring program utilizing AI.

SPECIFIC OBJECTIVES

- Enhancing language skills in daily communication and academic settings.
- Boosting self-confidence and self-esteem of migrant schoolchildren.

CARE

- Improving digital literacy in both language education and everyday life.
- Reinforcing the key 21st-century competencies among these pupils.
- Increasing employability prospects for young pupils from migrant families.
- Strengthening the supportive role of language educators through innovative methods.
- Enhancing competencies of language educators in the CLIL field.
